Summary

Senior Android Developer with 6+ years of experience building high-scale Android applications using Kotlin and MVVM.

Currently working on a 25M+ user production app at EaseMyTrip, focusing on performance optimization, crash reduction, and core feature development.

Strong hands-on experience with Jetpack Compose, Coroutines, Room, Retrofit, Firebase Crashlytics, and Clean Architecture.

Experience

[EaseMyTrip](#) | Android Engineer

Noida | Dec 2023 – Present

- Working on a large-scale consumer travel application with 25M+ users across Flight, Hotel, Cab, Metro, and Activities modules.
- Improved booking flow performance by reducing redundant API calls, resulting in ~20% faster screen load time.
- Reduced ANRs and crashes through better error handling and monitoring using Firebase Crashlytics and Sentry.
- Developed and enhanced features using Kotlin, MVVM, Jetpack Compose, Coroutines, and Retrofit.
- Took ownership of Android feature modules and contributed to architectural decisions for scalable implementation.
- Participated in code reviews and followed best practices to improve long-term maintainability.

[Chetu Inc.](#) | Android Engineer

Noida, India | May 2022 - Oct 2023

- Built an Android application from scratch and scaled it to 40K+ downloads.
- Designed app architecture using MVVM, Clean Architecture, Room, and RxJava.
- Reduced feature integration time by ~50% through modular and reusable components.
- Collaborated with design, backend, and QA teams to deliver stable and user-friendly releases.

[Onqanet Technologies](#) | Android Developer

Kolkata, India | August 2019 - April 2022

- Developed and maintained multiple client Android applications using Kotlin, Java, and Android SDK.
- Improved app stability for live apps with 25K+ active users.
- Integrated payment gateways including Razorpay and PayPal.
- Handled Play Store releases, updates, and production issue fixes.

Skills

Android SDK, Kotlin, Java, MVVM, Clean Architecture,
Jetpack Compose, XML, Coroutines, Flow, LiveData,
Room, Retrofit, OkHttp, Hilt, WorkManager,
Firebase Crashlytics, Firebase Analytics,
REST APIs, JSON, Git, GitHub Actions, CI/CD, Agile, Scrum

Education

B.Tech — Computer Science Engineering
St. Mary's Technical Campus, Kolkata (2015–2019)
